

ANKUSH PATIL

Technical Lead | Web UI Developer

(+91) 777 399 5151 | er.ankush.patil@gmail.com | Pune, Maharashtra | LinkedIn: webdevankush

SUMMARY

Technical Lead and Frontend Architect with 10+ years of experience building enterprise-grade, high-performance web applications using React, Angular, and TypeScript. Proven expertise in greenfield product development from scratch to production-ready, standards-compliant platforms, applying best practices in frontend architecture, performance, scalability, and maintainability. Strong people leader with experience managing 10+ engineers, owning delivery from POC to production, and collaborating across global teams. Hands-on with Node.js/NestJS, cloud platforms, CI/CD pipelines, and AI-assisted automation (OpenAI, n8n).

TECHNICAL SKILLS

- Frontend: React, Redux Toolkit, Angular, Vue.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, SCSS, Material UI
- Backend: Node.js, NestJS, Express.js, REST APIs
- Architecture: Frontend Architecture, Design Systems, Performance Optimization, Microservices
- Cloud & DevOps: AWS (S3, EC2), Azure, Jenkins, CI/CD, Akamai CDN
- Tools: Git, GitHub, GitLab, Jira, SonarQube, npm, Webpack
- AI (Supporting): OpenAI APIs, n8n

EXPERIENCE

Technical Architect / Technical Lead

Dec 2021 - Present

Globant India

Pune

- Led frontend architecture and delivery for enterprise platforms using React, TypeScript, and Redux Toolkit.
- Owned end-to-end delivery of the Shipboard Programming Platform across multiple releases with zero critical post-release issues.
- Designed reusable component libraries and UI standards, improving maintainability and development velocity.
- Managed and mentored 10+ engineers across globally distributed teams; drove code quality and engineering best practices.
- Improved application performance via code splitting, lazy loading, memoization, and selector optimization.
- Partnered with Product, UX, QA, Backend, and clients to deliver features across Agile sprints and enterprise releases.
- Scoped and architected large proposals (500–3,000 story points), defining multi-year roadmaps and delivery plans.
- Led change requests, team scaling, and delivery continuity during cross-regional leadership transitions.
- Contributed to hiring initiatives and internal automation using n8n and OpenAI integrations.

Senior Software Developer
Hansen Technologies

Jun 2018 - Dec 2021
Pune

- Managed and guided a high-performing team delivering customized CPQ solutions, improving delivery efficiency and collaboration.
- Actively contributed to solution planning, feature development, microservices execution, and production defect resolution.
- Worked directly with Simply Energy on B2B and B2C platforms, owning modules from POC through production rollout.
- Created and executed a telecom CPQ customization POC that supported acquisition of a new enterprise customer in the energy domain.
- Planned and developed a reusable Customer Demo Portal, enhancing sales demonstrations and lead conversion.
- Created responsive UIs using AngularJS and developed secure, scalable REST APIs using Node.js.

MEAN Stack Developer
ScriptLanes

Dec 2015 - Jun 2018
Pune

- Created and developed MEAN stack applications with RESTful backend services.
- Planned and built single-page applications using Angular/AngularJS following MVC architecture principles.
- Integrated third-party services including Google Maps, payment gateways, and social login APIs.
- Optimized application performance and handled deployments across AWS infrastructure.
- Collaborated with cross-functional teams to deliver production-ready features.

EDUCATION

Pune University, Pune - MCA

Jun 2012 - Jun 2015

Shivaji University, Kolhapur - BCS

Jun 2009 - Jun 2012
